## 1. The original

The television series M.A.S.H. from the years 1972 to 1983 served as a model for this scene..

The scenery was positioned in the mountains west of Uieongbu in a lonely area, which should correspond to the (in the series) real situation in about.

Many illustrations are from the television series and are therefore (c) 20th Century Fox Television.

## 2. The scenery

The scenery is based on publicly available information. All objects were recreated and modeled as exactly as possible on the series model. The objects were arranged on the basis of the adjacent map or pictures from the series.

**Kartenmaterial**
