1. The Original

Air Ambulance Technology was founded in 1993 by present owners and presidents Egon and Dorothea Kuntner after a "Management Buy-out" from the Austrian Metal AG (AMAG). Air Ambulance Technology was, and still is a family run business now in its second generation. Daughter, Nicole Kuntner-Hudson joined the management team full time as CEO in 2014.

To date, Air Ambulance Technology is proud owner of over 30 "Supplemental Type Certificates" (STC's) for many different types of aircraft. Ranging from the small, single engined AS350/H125, up to the AS332/H225 and the Mi8, the company strives to manufacture and install EMS, MedEvac and VIP interiors in both helicopter and fixed wing aircraft.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.
