1. The example

The hospital 'Rudolfstiftung' in the 3rd district of Vienna.

Founded in 1858 and rebuild in the 1970's. Reopened in 1975 with 800 beds, serving around 34.000 in- and 300.000 outpatients per year.

In August 2013, after 2 years time of construction, the new part in the south of the hospital was opened. It contains also a helipad on the roof adopted to the modern safety standards of rescue flying.

2. The scenery

The photorealistic scenery was build from scratch. GoogleEarth and pictures from the internet were used as data source. The helipad is for VFR only. In real this helipad has no ICAO code. To make it easier to find the helipad in the directory and in the GPS the fictional code 1030 (zip code) was used. Some objects are from the joint library of the AXDG.

Austrian X-Plane Design Group

3. Functions (summary)

- Photorealistic scenery
- Compatible to OSM+autogen from PilotBalu
- Compatible to X-Plane 10 HD Mesh Scenery v2 from alpilotx
- Realistic ground texture on the heliport area
- Night textures and realistic lightning (X-Plane 10 only)

4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Necessary software:

X-Plane® Version 10.25+ or 9.7

7. Libraries used

None

8. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM_Europe_osm+autogen by PilotBalu.

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe_Library from LyAvain.

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.

11. Terms of license

This scenery is freeware and stays in the possession of the developer/s. Upon installation of the freeware the user accepts the terms of use. It is not allowed to upload the scenery or parts of it to other websites without the explicit permission in writing of the developer/s. Furthermore it is forbidden to use the scenery or parts of it on a commercial basis without the explicit permission in writing of the developer/s. Changes and modifications for the private use are allowed. But it is not allowed to share such changed or modified versions without the explicit permission in writing from the developer/s.

Apart from that the respective terms of copyright law are applicable.

The developer/s are not responsible for any malfunctions or possible failures of hard- or software in connection with this scenery. Under [this link](#) the developer/s are available for questions or remarks regarding this scenery but cannot give the guarantee that this scenery will work on all computer systems.

Have fun with arrivals and departures at the hospital!

Peter, 'PetJedi'
