2. The scenery

The scene is based on publicly available information.
All objects have been completely rebuilt.
The helipad is for VFR only. In real this helipad has no ICAO code. To make it easier to find the helipad in the directory and in the GPS the fictional code 1030 (zip code) was used.

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.
