The Original

History

In the 19th century a barrack hospital was built in the area of the roman settlement „Flavia Solva". This hospital has been destroyed during the first world war. In the following years it was rebuilt by the austrian red cross. This organisation relinquished the hospital to the styrian country in 1936.

The hospital then consisted of four departments (surgical, medicinal, maternity, isolation ward and about 100 beds).

During the end of the 1950s the plannings for the now operating hospital began.

The building is located amidst a park. Since 1986 it is the standard hospital of the styrian „KAGES".

The scenery

The scene is based on publicly available informations.
All objects have been new created

Every object has been build completely from scratch. Because of weak picture quality it isn´t absolutely realistic. Nonetheless it is as realistic as possible.

Installation

Just copy the folder "LKH_Wagna" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:
<X-Plane-Folder>/
      Custom Scenery /
         LKH_Wagna/
            Earth nav data and others

and restart X-Plane.

Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

Required Software

X-Plane® Version 11.11+

Used Libraries

CDB-Library
The_Handy_Objects_Library

Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):
