1. The example

The base of the medivac helicopter "Christophorus 9" is located in the 22nd district of Vienna on the area of the former airfield 'Aspern'. The base was put into operation on the 1st of April 2001. At the very beginning only with a dent as hangar and some containers for the crew and personal. The base in its current state exists since May 2002 and is operational 24/7. Flighttimes are in summer from 0600 a.m. and winter from 0700 a.m. always until sunset. The base itself contains a hangar with portable helipad, a fuelstation and a building for the crew and personal.

The primary area of operation is the citiy of Vienna, its vicinity up to the northeastern region of the state of Lower Austria and the north of the state Pannonia. With about 2 million citizens in the area of operation, Christophorus 9 covers the most dense living area in whole Austria.

2. The scenery

The photorealistic scenery was build from scratch. GoogleEarth was used as data source. The helipad (LOAJ) is for VFR only. Some objects are from the joint library of the AXDG.

Austrian X-Plane Design Group

3. Functions (summary)

- Photorealistic scenery

- Compatible to OSM+autogen from PliotBalu

- Compatible to X-Plane 10 HD Mesh Scenery v2 from alpilotx

- Realistic ground texture on the heliport area

- Night textures and realistic lightning   *)

*) X-Plane 10 only

4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Necessary software:

X-Plane® Version 10.25+ or 9.7

7. Libraries used

None

8. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM_Europe_osm+autogen by PilotBalu,
Download: http://simheaven.com/?page_id=23
to have streets and buildings from OSM and autogen where is no coverrage of such data.
Europe_Library from LyAvain,
Download: http://simheaven.com/?page_id=14
to see European instead of US buildings.
