## 1. The example

The base of the medivac helicopter “Christophorus 16” is located northeast of Oberwart in Pannonia. The base was opened on the 1<sup>st</sup> of May 2005 and is a cooperation between the state of Pannonia, ÖAMTC and the Red Cross.

The base consists of the hangar, a refueling station and the rooms for the personal.

More than 800 calls per year making the Christophorus 16 an indispensable component of a modern emergency system in the south of Pannonia.

# Austrian X-Plane Design Group

## 2. The Scenery

The photorealistic scenery was build from scratch. Beside GoogleEarth, the facebook and private homepage of the C16 Team was used as data source. The helipad (LODO) is for day and night VFR only. Some objects are from the joint library of the AXDG.

The package includes night textures and realistic lighting (only X-Plane 10, 11).

### Charts

not available.

## 3. Functions (summary)

- Photorealistic scenery
- Compatible to "OSM+autogen" or. "Osm\_Austria\_beta4.1" by PilotBalu
- Realistic ground texture on the heliport area
- Night textures and realistic lightning \*)

\*) X-Plane 10, 11 only!

## 4. Installation

Just copy the folder " LODO Oberwart OEAMTC 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

### directory structure:

```
<X-Plane-Verzeichnis>/  
  Custom Scenery /  
    LODO Oberwart OEAMTC 2.0/  
      Earth nav data and others)
```

and restart X-Plane.

## 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

# Austrian X-Plane Design Group

## 6. Erforderliche Software

X-Plane® Version 11.10+, 10.25+ oder 9.7

## 7. Comments for the X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which were taken with X-Plane 10.25.

## 8. Used Libraries

none

## 9. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM\_Europe\_osm+autogen by PilotBalu,

Download from: [http://simheaven.com/?page\\_id=23](http://simheaven.com/?page_id=23)

to have streets and buildings from OSM and autogen where there is no coverage of such data.

**or**

Osm\_Austria\_beta43.1 by PilotBalu

Download from: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download from: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe\_Library von LyAvain,

Download from: [http://simheaven.com/?page\\_id=14](http://simheaven.com/?page_id=14)

to see European instead of US buildings.
