1. The Original

Punitz is the only airfield in Burgenland with concrete runways. Regarding to its outstanding position in the southeast of Austria it is located in a famous wine and wellness region.

It is a starting point for visiting the wellness area of Stegersbach, Tatzmannsdorf, Waltersdorf, Blumau or Loipersdorf. It is also a well known golf area. In addition there are a lot of good restaurants and so called “Buschenschank” for tasting wine in this idyllic region of Austria.

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.25.

9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe Library from LyAvain,

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.
