1. The Original

Oberwart Hospital

The hospital was founded in 1911. In 1976 a decision was made to build a hospital with special treatment for southern Pannonia, generous renovations and new buildings took place. The last building project followed in the years 1981, 1985 and 1993. Today the Oberwart hospital holds over 349 beds.

In addition to the standard hospital departments, such as surgery, gynecology, obstetrics, and internal medicine, there are also areas of pediatrics, neurology, trauma surgery and urology. Institutions, such as anesthesiology and intensive care, a central X-ray Institute with magnetic resonance imaging, computer tomography, a Department of Pathology and an expert focus ENT are also available.

2. The Scenery

The scenery is based on open public information and maps as well as photographs taken by the author. The objects were completely rebuilt.
The package includes night textures and realistic lighting (X-Plane 10 only).

3. Functions (summary)

- Photorealistic scenery

- Different buildings on the premises of the hospital

- Night textures and realistic lightning   *)

*) X-Plane 10 only

4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

5. Recommanded settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Necessary Software

X-Plane® Version 10.30 or 9.7

7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.30

8. Used libraries

9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM_Europe_osm+autogen by PilotBalu,
Download: http://simheaven.com/?page_id=23
to have streets and buildings from OSM and autogen where is no coverrage of such data.
Europe_Library from LyAvain,
Download: http://simheaven.com/?page_id=14
to see European instead of US buildings.

10. Credits

LAMINAR RESEARCH®	for X-Plane®
Cami de Bellis	for her "Cars"
Ben Supnik	for WED (Version 1.2.1r3 used)
marginal	for Sketchup-Plugin
