Inhalt

Austrian **X**-Plane **D**esign **G**roup

1. The Example

The Airfield LOGW Unterfladnitz/Weiz is located aprox. 5km south-east of Weiz between the *Rechberg Bundesstraße* B64 and the railway of Styrian State Railway Company.
ASKÖ Aviation Sport Club Weiz is operating the airfield, which is used by small single engine fixed wing aircrafts, gliders and helicopters up to 2t max weight.

2. The Scenery

The Scenery is based on fotos, which I have taken, with the friendly permission of the groundkeeper, during the rebuild of the gras strip. The objects are build bis SketchUp® and exported with SU2XPlane Plug-In from marginal.

Airstrip Informations
can by found here: http://www.vacc-austria.org/?page=content/airportinfo&icao=LOGW or direct on the homepage of the ASKÖ Aviation Sport Club Weiz: http://www.logw.at/

There is now lighting included in this version!

Austrian X-Plane Design Group

3. Airfield Overview

# **A**ustrian **X**-Plane **D**esign **G**roup

4. Installation

Copy the folder "LOGW Unterfladnitz" to "\X-Plane 10\Custom Scenery\".
For the hangar door movement you will need the add-on "HangarOps Package" from Micro Shade Tree (see Credits)

At the zip/rar archiv you will find also a file called "GasStation.lua". If you are using the Plug-In FlywithLua by Carsten Lynker, you can copy the file to the FlywithLua script folder to use the refuling skript at the fuel station.

5. Hangar Doors & Fuel Station

There are 3 hangars located at the airfield and a refueling station as well. The doors are moveable with the Hangar Ops Plug-In. Keycodes see below

If the fuel station door (Code "0") is open you are able to refuel your aircraft with the LUA script automaticaly.

Austrian **X**-Plane **D**esign **G**roup

6. Software requirements

X-Plane® Version 9.7
X-Plane® Version 10.20 or higher

7. Notes for X-Plane® 9 version

Unfortunately, there are some limitations for the X-Plane® 9 versions.
Screenshots are taken with XP10.20

8. Used Libraries

No

9. Recommended Add-On's

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM_Europe_osm+autogen by PilotBalu,
Download: http://simheaven.com/?page_id=23
to have streets and buildings from OSM and autogen where is no coverrage of such data.

FlywithLua by Carsten Lynker,
for the refueling function
Download: http://forums.x-plane.org/index.php?app=downloads&showfile=17468

10. Credits

LAMINAR RESEARCH®	for X-Plane®
Ben Supnik	for WED (Version 1.2.1r3 verwendet)
marginal	for Sketchup-Plugin
Shade Tree Micro	for "Hangar OPS Plug-In"
uwespeed	for "European vehicles (static) v1.01"
vonhinx	for "Glider Box Trailer Objects"

11. Beta Testing Team

OE3GSU, Greuff, Grissley, Petjedi, Paa196
Members der AXDG
