1. The Original

Tower frequency: 122.7

Runway-direction: 02/20

Runway: 700 x 30m Gras

MSL: 520 m

On the Eastside of the lake Ossiach you can find a small but very nice airfield, called Feldkirchen LOKF. There is a nice restaurant the Fly INN on this airport. From here we have a good starting point for a roundtrip around the well known lakes of Carinthia like Worthersee, Fakkersee or Ossiachersee.

2. The Scenery

The scenery is based on open for public information and maps. The objects were completely rebuilt.
The package includes night textures and realistic lighting (X-Plane 10, 11 only).

Charts
are included in this package.

3. Functions (summary)

- Photorealistic scenery

- Parkpositions, taxiways, runways, etc. conform to the charts

- Different buildings in the vicinity of the airport

- Night textures and realistic lightning   *)

- ATC taxilines for AI traffic   *)

*) X-Plane 10, 11 only!

4. Installation

Just copy the folder "LOKF Feldkirchen 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:
<X-Plane-Verzeichnis>/
    Custom Scenery /
       LOKF Feldkirchen 2.0/
         Earth nav data and others)

and restart X-Plane.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

Austrian X-Plane Design Group

6. Necessary Software

X-Plane® Version 11.11+, 10.30+ or 9.7

7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.25.

8. Used libraries

9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM_Europe_osm+autogen by PilotBalu,
Download: http://simheaven.com/?page_id=23
to have streets and buildings from OSM and autogen where is no coverrage of such data.
Europe_Library from LyAvain,
Download: http://simheaven.com/?page_id=14
to see European instead of US buildings.

10. Credits

LAMINAR RESEARCH®   for X-Plane®
Ben Supnik   for WED (Version 1.6.1 used)
uwespeed   cars
leovox01   Maintennance Equipment
