### Installation

Just copy the folder "LKH\_Bad Radkersburg" in the compressed file after unpacking in the "Custom Scenery" - folder.

```
<X-Plane-Folder>/  
    Custom Scenery/  
        LKH_Kirchdorf/  
            Earth nav data and others
```

and restart X-Plane.

### Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.
