Austrian X-Plane Design Group

1. The Original

The Airfield in Leopoldsdorf im Marchfeld formerly had the ICAO-designator LOAL. Currently it is used only by the company "Land- und Forstflug HmbH" as an exterior landing site.

It is 0.75 nm west-northwest of the town of Leopoldsdorf im Marchfeld.

There is no ATC and no ATIS.

2. The Scenery

The scenery is based on publicly available information and pictures taken there in Sept. 2014.

All objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10, 11 only).

Charts

not available.

Comment: During the approach to runway 31 avoid overflight of the settlement.
Only approved aircraft and only PPR

3. Functions (summary)

- Photorealistic Scenery
- Compatibel to "OSM+autogen" or. "Osm_Austria_beta5.0" from PilotBalu
- realistic ground texture at the airport and in the surroundings
- real lighting, individual built
- night textures and lighting *)

*) X-Plane 10, 11 only !

Austrian X-Plane Design Group

4. Installation

Simply copy the folder " Leopoldsdorf Marchfeld 2.0" from the depacked file into the "Custom Scenery" folder of your X-plane.

Folder structure:

```
<X-Plane-Folder>/
    Custom Scenery /
        Leopoldsdorf Marchfeld 2.0/
            Earth nav data and others
```

Don't forget to restart X-Plane before use.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Required Software

X-Plane® Version 11.11+, 10.30+ or 9.7

7. Comments for the X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with XP10.30RC1).

8. Used Libraries

none

Austrian X-Plane Design Group

9. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download from: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

or

Osm Austria beta 5.0 by PilotBalu

Download from: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download from: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe Library von LyAvain,

Download from: http://simheaven.com/?page_id=14

to see European instead of US buildings.
