## 1. Description

In Austria (and other European countries) Runway-numbers have two digits. Unfortunately, X-Plane displays any number under 10 X-Plane without a leading "0". This addon replaces the default textures by 2-digit numbers.

## 2. Installation

The corresponding textures are located in the folders

**"X-Plane Ordner"/Resources/bitmaps/runways/asphalt/Numbers** and  
**"X-Plane Ordner"/Resources/bitmaps/runways/concrete/Numbers**

***First. make a backup of these folders!***

Unzip the package. Copy the contents of the two directories over the corresponding directories of the X-Plane installation.

Hint: When you update X-Plane, the downloader will ask if these files should be overwritten or if you want to keep the new files. After overwriting this AddOn needs to be installed again.

## 3. Necessary software:

X-Plane® Version 10.25+ oder 9.7
